Bob,

I write in response to your email below.

In response to your request, we have looked into this issue again and located a copy of what I understand to be what you describe as "Noor's prisoner file."

Those documents were included in the document production which I sent to you on Tuesday by certified mail at Bates Nos. 02:07735-7742.

Please note that, although we included it because it was in "the file," we understand the document marked as Bates No. 02:07740 to be factually incorrect insofar as it suggests that Mr. Noor is no longer in Israeli custody.

Brian -

I am informed that the Arabic-language documents you produced yesterday in Shatsky contain several prisoner files. Please explain why you are purportedly unable to find Noor's prisoner file, when you found and produced such files in in Klieman and Shatsky, and please explain what search, if any, you have made for Noor's file, and how that purported search differs from the successful searches you conducted for these files in Shatsky and Klieman.

Bob,

As I told Mr. Haller during our last meet and confer call, we have searched for but been unable to locate the documents you describe in item 2 below.

I have made further inquiries as I told Mr. Haller I would, but we still have not been able to locate the documents you describe in item 2 below.

Regards,

Brian A. Hill

Brian -

Over a month has passed without any response to item # 2 in my email below. Please provide a response immediately, or I will have to bring this matter to the attention of the Court.

Counselors -

1) I am still awaiting your response to the email below.

2) Reading over the transcript of the Jawad Amawi deposition in *Klieman* that you have produced, I see that the PA Prisoner Ministry has a paper application form and file for each prisoner. *Id.* at pp. 51; 64. That form and file are clearly responsive to the Sokolow Plaintiffs' RPD 3(i) (which seeks "*All documents concerning all payments made to and all benefits provided to Noor and/or his relatives by the PA and PLO at any time after January 27, 2002, in relation to, as a result of, or due to his arrest/imprisonment by Israel*") -- but they have not been produced.

Please advise immediately whether the PA will produce the Prisoner Ministry's paper application form and file for Noor, and if so when.

Counselors -

We would like to meet and confer about the production we just received from you in Sokolow, prior to seeking relief from the court in respect thereto. When early next week are you available?
